

AWHONN Intermediate Fetal Heart Monitoring Course

An Association of Women's Health, Obstetric, and Neonatal Nurses Program

Tuesday, June 6, 2023

8:00 am to 4:00 pm

Partnership for Maternal and Child Health of Northern New Jersey

50 Park Place, Suite 700

Newark, NJ

AWHONN Intermediate Fetal Monitoring Course

This course addresses principles of fetal heart monitoring and may be used as a knowledge assessment tool to validate comprehension of experienced perinatal clinicians. This course includes lecture, hands-on skill stations including performing Leopold maneuvers, placement of an intrauterine pressure catheter and fetal spiral electrode, interpretation of fetal monitoring tracings using a case-based approach, identification of physiologically based clinical interventions, and communication and risk management principles. This course can be used to support preparation for certification examinations.

Learning Outcomes

- Interpret fetal heart rate monitoring using NICHD terminology within a safety culture framework of interdisciplinary teamwork
- Describe clinical interventions and related maternal-fetal physiology to optimize fetal oxygenation
- Demonstrate collaborative communication in the perinatal setting
- Demonstrate common perinatal procedures related to fetal monitoring

CNE/CME contact hours

11.25 nursing contact hours/11.25 CME contact hours available through January 31, 2025
(0.5 hours may be used towards pharmacology hours)

Course Format

Successful completion of online prerequisite education is required **48 hours prior** to attending the one-day in-person portion of the course.

- Prerequisite learning 3+ hours online
- In-person is an 8-hour day includes time for lunch and breaks

CNE/CME will be awarded after successful completion of the online knowledge validation test and evaluation after the in-person course and is required to receive CNE/CME for the course

Instructor

Michelle L. Dickerson, PhD(c), RNC-NIC, C-ELBW, RNC-MNN, C-EFM, NPD-BC, CBC
